

# Conversation Guide

*How to get started whether you're having a conversation, making a phone call, writing an email, or sending a letter to your elected officials*

Begin by **introducing yourself** and your pharmacy

Raise one specific issue you'd like to discuss

Make sure they know you are a **licensed pharmacist**

Talk about how it impacts you, your patients, business

Share the **name of your pharmacy** and its **location** in the state

Tell your legislator what you'd like them to do

How long you have **served patients** as a pharmacist, **enhanced services** offered

Thank them for their time
